SUMMARY

Dynamic and results-oriented Software Developer with 4+ years of experience crafting innovative solutions in fast-paced environments. A collaborative team player, seamlessly integrating with multidisciplinary teams to drive project success. Committed to continuous learning and researching emerging technologies to enhance project efficiency and deliver high-quality solutions that exceed client expectations.

EXPERIENCE

FRONTEND DEVELOPER • OCT 2022 – PRESENT

ETHOS Innovation Inc.

Spearheaded the development of a web application for a government agency in the Philippines, utilizing ReactJS, JavaScript, TypeScript, and AWS.

FULL STACK DEVELOPER • FEB 2024 – AUG 2024

Strongwill I.T. Solutions

Collaborated with QA's, Mobile Developers, PO's, PM's and management to address enhancements and tickets raised by the stakeholders. Assisted in developing the data migration tool built on Node.js, MongoDB, REST API and AngularJS to scrape data from other websites.

FRONTEND DEVELOPER • DEC 2020 – JULY 2023

PRL BPO Technology Corp.

Managed Bundr, a social media platform (built with React, TypeScript, and Python) while using Redux and Context API for state management. Upgraded the HR system by modularizing pages and employed Cypress for testing.

JUNIOR SOFTWARE DEVELOPER • JULY 2019 –MARCH 2020

Traxion Tech Inc.

Sustained an e-platform for donations by leveraging Python-Django and the Bulma framework. Actively collaborated within a team to introduce new features and enhancements.
